

DESCRIPTION / APPLICATION

The Buchanan computer marking system allows marking tags to be printed on location. The program is easy to use and compatible with MicroSoft Windows® programs. Simply load the printer with blank marking paper, design the marking strips on the computer, and print. The marking paper is perforated and the strips slide into the terminal block marking channel. Finally, slide a transparent protector over the strip.

DESIGN ADVANTAGES

- Compatible with Windows 95® and Windows 3.x.
- Windows® based program with intuitive interface
- 32 special symbols available such as ground, warning, resistor, star connection, and many others
- Rotates text to adjust for mounting direction of rail, plus supplies fonts for boldface and italics
- Provides black and white, color, or dual color background (text can be any color or reversed)

RECOMMENDED
CONFIGURATION

Computer: Pentium 100, 16MB Ram

Monitor: VGA color, 800 x 600

Operating System: Windows 95 or Windows 3.x

Printer: Ink Jet, laser printer, dot matrix, photocopy

Printing Materials: PVC for laser printer and photocopy, Tyvek® for dot matrix; need transparent protection for thickness

MARKING SOFTWARE

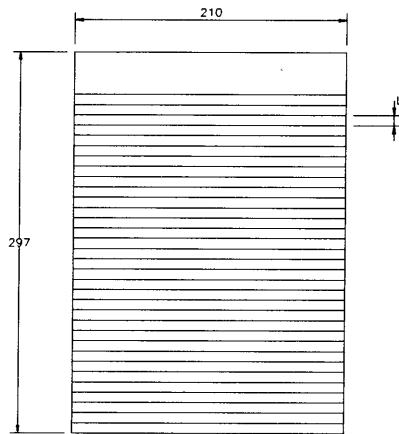

Windows and Windows 95 are trademarks of MicroSoft Corp.
